

Paper Plate Poppy

You will need...

Paper plate, card or paper

Scissors

glue

Coloured pens or paint

bun cases or small black circles

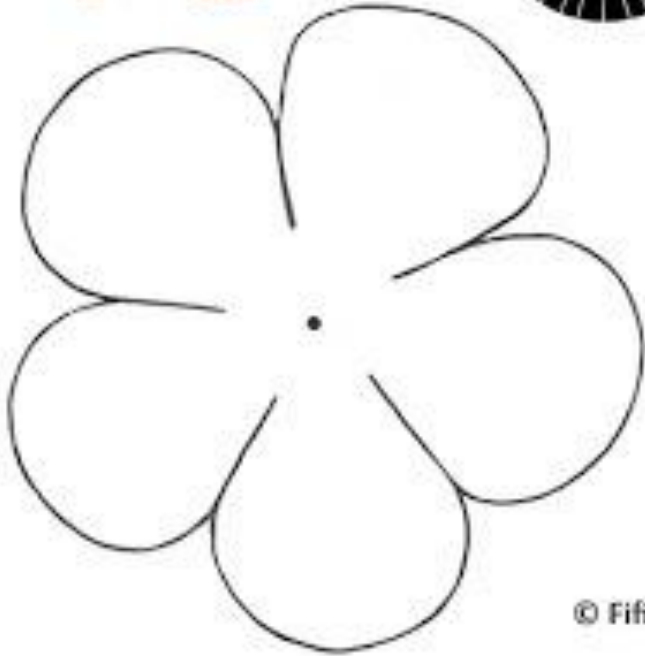

If you have a paper plate then cut 4 small triangular pieces or use the template over the page to draw around on card or paper.

Decorate the plate using bright red coloured tissue paper, paint or felt tips.

Add a black circle in the centre using a bun case and stick it down with glue. You may want to snip a fringe on the circle to make it stand out.

Hang your poppy in the window or put it so that people who pass your house will see.

The Red POPPY

POPPY PLATE WEAVING

If you have black wool or string you could weave a poppy like this one as an extra challenge
