

Tuesday 10th November 2020

Good morning Class 1 and welcome to your Tuesday work.

I have contact numbers at the ready for you all now and will try and ring around the class by Thursday this week.

I am delivering or posting print-outs for homes where there is no printer or preparing school work is proving difficult. Please email admin and I will endeavour to post or drop off work ASAP.

Maths

Please watch the Maths video for today and then practise some number 4 and 5 formation. There are lots of ideas and challenges on the video but the snap game and counting in 2s sheet is ready to print off too.

PE

I know how much you are missing Mr Smith's games lessons, so I have made a quick video with a few ideas for rolling, throwing and catching. You can make up your own challenges and send them in as part of weekend news if you like? I hope Mr Smith doesn't mind and I'm sure he will show you how to do it 'properly' later. I had a lot of fun throwing and catching with Mrs Mortimer though!

Poppy Art

Please follow the instructions of how to make a paper-plate poppy.

You can use just about anything that you have around the house- but remember to make it bright and colourful!

Put your poppy in the window on Wednesday to help everyone stop and remember. I am hoping to upload a video all about Remembrance Day, so watch it on Wednesday morning before 11am.

Speak to you all soon!

Mr Mortimer
