

## Class 4 working from home information for week beginning 14<sup>th</sup> December 2020

If you are working from home due to having to self-isolate, try your best to complete this work. I will endeavour to match it as close as I can to what we are doing in class, so you do not miss anything. If you would like any work checking or marking, please email messages and photos of your work to the Slingsby Admin team and they will forward it on to me. Do your best to also read to an adult for 15-20 minutes a day.

Looking forward to seeing you again soon!

O LO: Can I practice my ball skills in rugby?

I have written a description of a mini-game below that you could try to play with family at home to practice your rugby skills.

Tag:

This game is designed for two people to play. One person holds the ball and is attempting to get it to the opposite side. The other person has to try and tag them once to stop them from doing it.

The person holding the ball must run whilst holding it. The focus of this game is on dodging your opponent. Think about how you could move with the ball to avoid being tagged. This game is designed to help you practice being light on your feet.

As you work on this task with your partner, continue to swap roles. Think about how you could also make the task more challenging for you and your partner.
