

Class 1 Understanding the World

Thursday 21<sup>st</sup> January 2021

Today in class we have been looking at the Seasons, particularly Winter. Unfortunately, the video we recorded had some problems so I will share the resources we looked at with you to access at home.

We started by joining in with a song. The link on YouTube is here. In class we watched it through once and then played it again, joining in with the chorus (and the dancing!)

<https://youtu.be/7MxTdXXu-pl>

We then looked at the powerpoint and discussed the different signs of Winter together. Have you ever seen icicles? Do you know what they are made from? Can you spot which animals are sleeping? Do you know what we call it when animals sleep through the Winter months? Can you look through the powerpoint and talk about what you see? ( I have tried to record my voice on the powerpoint; hopefully this will work for you, but my apologies if not).

I would love to hear what you think!

Miss Pearce
