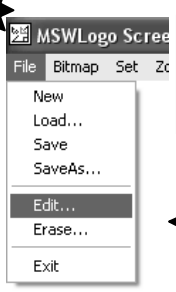
Make a procedure for <u>each</u> letter:

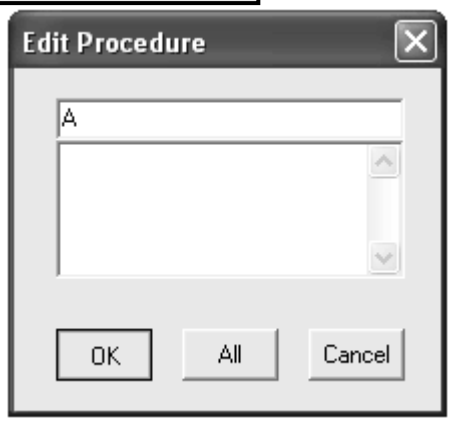
1



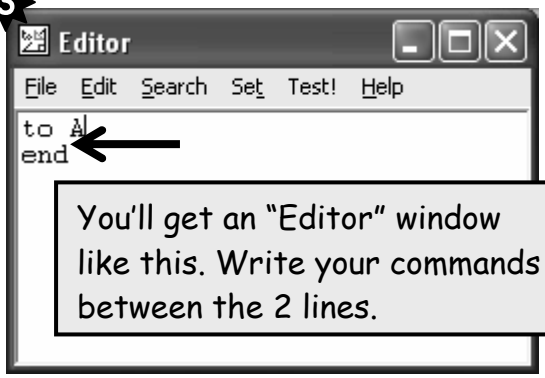
First, choose "Edit" from the menu.

2

Then type in a name for your procedure

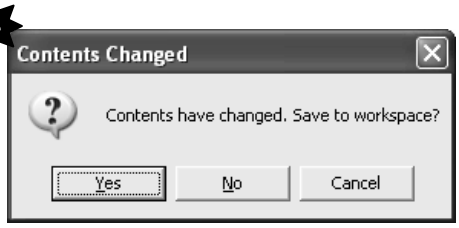


3



You'll get an "Editor" window like this. Write your commands between the 2 lines.

4



When you've finished, just close the window and choose "Yes" to save your changes.

Test your Procedures!

To see if each procedure has worked, type the procedure name in the command window and press ENTER.

Make a list of any words you can write by calling the procedures:
