

Bonjour Classe Trois 😊

**LO: I can use the vocabulary I have learned more confidently**

Aujourd' hui, nous allons apprendre les nombres et la papeterie encore une fois.

**Today we are going to learn numbers and stationery again.**

It's important to keep using the words we have learnt to help us remember them, and to feel more confident when we use them.

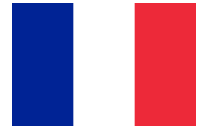

A few weeks ago we learnt the word for the stationery and other things we use in school. How many can you remember?

😊 **Activity! Combien de....? (How many....?)**

Look at the number resources from last week, and listen to the songs. Count out loud, and sing along with the songs.

Now try these questions.....

☺ Can you fill in the gaps?

I've done the first one for you.

Combien de **cahiers** y a-t-il? (how many notebooks are there?)

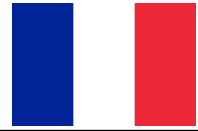

Il y a **douze cahiers**. (There are twelve notebooks)

Combien de \_\_\_\_\_ y a-t-il?

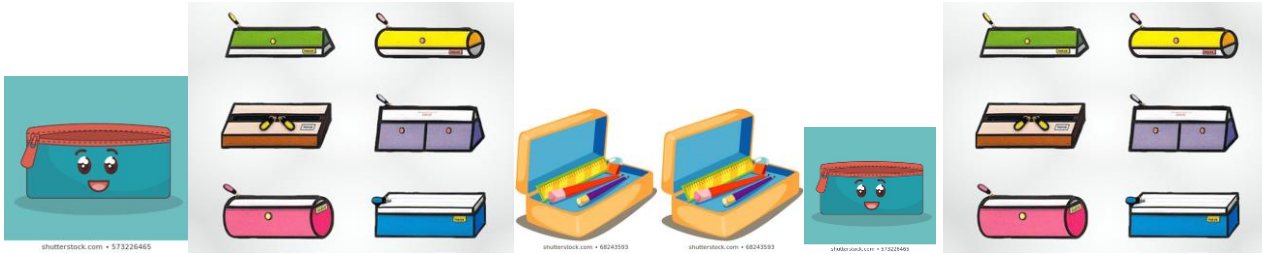

Il y a \_\_\_\_\_.

Combien de \_\_\_\_\_  
\_\_\_\_\_ y a-t-il?

Il y a \_\_\_\_\_  
\_\_\_\_\_.

\_\_\_\_\_ de \_\_\_\_\_ y a-t-il?

Il y a \_\_\_\_\_ .

quote text box.]

\_\_\_\_\_ de \_\_\_\_\_ y a-t-il?

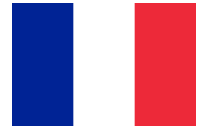

Il y a \_\_\_\_\_ .

\_\_\_\_\_ de \_\_\_\_\_ et \_\_\_\_\_ y a-t-il?

Il y a \_\_\_\_\_ et \_\_\_\_\_

Now try with objects at home. You can find different numbers of pens. Pencils and books or create a groups of different objects.

You can play this game with someone else, or by yourself. Gather together as many of the objects listed above, and put them into a pile. Then count how many there are in French! Say the words for the objects as you go.

Use all the resources from last week to help you, including the counting songs. **BBC Bitesize** has lots of useful resources too.

😊 **Fancy a challenge?**

Can you remember your clothes and colours? Try using these too!
