

History

Tuesday 26th January 2021

Have a look at the PDF magazine 'the Stuarts', which I think you might have seen part of before. Use the information in the magazine to answer the questions below. I have helped out with finding the information in the first few by putting the page number where you will find the answer in brackets at the end of the line (the last couple you are on your own!).

Once you have completed these questions then you can have a go at one of the activities in the magazine – create a timeline, make a cavalier hat or try and find where King Charles II is hiding.

1. In what year did England have no king or queen for the first time in 800 years? (page 1)
2. What is the name of the wand, or long piece of wood, used to ask a horse to perform a movement? (page 11)
3. What was the name of the ship that the pilgrims sailed on from Plymouth to the New World in 1620? (page 15)
4. Where is Goodrich Castle? What was one of the special features of this building?
5. Find 3 facts about William Cavendish.
