

## Class 1 Reading Friday 8<sup>th</sup> January

### Word reading: new sound "ch"

Please refer to the teaching video to introduce your child to our new sound "ch".  
Hopefully the editing is improving...!

#### Activity 1

If you are able to, print these pictures out and put them around the room. Ask the children to pick one of the following words and match the word to the picture. If you cannot print them out, please show the picture to the children and ask them to select the corresponding word.

chip  
chin

chicken  
chop

#### Activity 2

Say the sentence "A chip is hot". Be sure to repeat it together a number of times (you can use funny voices to make it more fun for the children).

Write the sentence down together on a piece of paper asking the children to help you remember the words and help you remember how to spell the different words. Read it through and ask the children to check all the words are there and it makes sense.

Turn the paper over and see if the children can write the sentence independently. If you can encourage them to use their phonics fingers to separate the sounds, that should help them.
