

Dear Class 1

I am the creature that has visited your classroom. I am very sorry for leaving such messy footprints. I did come back and clean up but I was in a rush.

Yesterday I left something very precious with you to look after, a diplodocus egg. I hope you found it? Please could you take care of the egg until I can come back for it? It needs to be kept warm and dry.

When I come back, I will need to carry the egg. Please can you help me to carry it by designing an egg carrier for it? It will need to be strong, have a handle and be able to hold the egg without it falling out.

I hope you can help me.

Diplodocus
