

Afternoon challenges: Wednesday 3rd February 2021

Well done to everyone on how hard you are all working at home. To try and better reflect the play-based learning we follow in school, I have some ideas for more creative, practical activities that you may want to try.

Drawing

I know that some of you enjoy drawing, so have attached a simple step by step guide to drawing a bird to reflect our learning last week and the Big Schools Birdwatch.

Photography

I know that lots of you are getting out and about on your daily exercise. Can you take a photograph of your favourite walk, something interesting that you have seen or the first signs of Spring? (buds, snow drops, bulbs peeping through). I would love to see what you find!

Do a jigsaw

Jigsaws are great fun when it is cold and wet outside. Share your favourite with me.
