

## **Class 1 Afternoon Challenge**

**Wednesday 24<sup>th</sup> February 2021**

So this week we have been thinking lots about our mystery visitor. Who could it be? Why have they been to our classroom? How did they get there? Where have they gone?

I wonder if you could put together the things you might need for an investigation kit (a torch, a notepad and pen, a magnifying glass, compass, binoculars) and during your daily exercise, get outdoors and do some of your own investigating. What can you spot in your own environment? Can you find a trail or a mysterious object? You might even make some binoculars out of tubes of paper!

This week in school the children have also been making the most of the windy weather and made kites. We just cut up a piece of paper in any shape (diamond, square, Iron Man!), decorated it and then threaded some wool or string through the end. Then get running and see how your kite flaps in the wind!!

Let me know how you get on!
