

## Class 1 Maths

Friday 12<sup>th</sup> February 2021

**Warm up activity:** practise counting in two's. Can you count all the way to 20? What parts of your body could you use to help you? Two ears, two eyes, two hands, two feet?

### Learning activity

Today we are going to measure time. Start by asking the children to estimate how long a minute is. Set a timer and ask all the children to stand up. Tell them to sit down when they think a minute is up.

**Challenge:**

Ask a grown up to time you for one minute.

You could see how many times you can write your name in one minute.

Or how many cubes you can place in a tower in one minute.

What else could you do in one minute?

Which activities were quick to complete? Which activities took longer?
