

Class 1 Maths Wednesday

3rd February

Counting two groups

What can you see in the picture? How many ducks are in the pond? How many are on the grass? How many ducks altogether? I spy a group of 1? Can you see where this duck is?

What can you see in the picture? How many apples are in the tree? How many are on the grass? How many apples altogether?

What can you see in the picture? How many big fish can you see? How many small fish? How many fish altogether? I spy a group of 3 and a group of 2. What am I looking at?
