

Wednesday 10th February

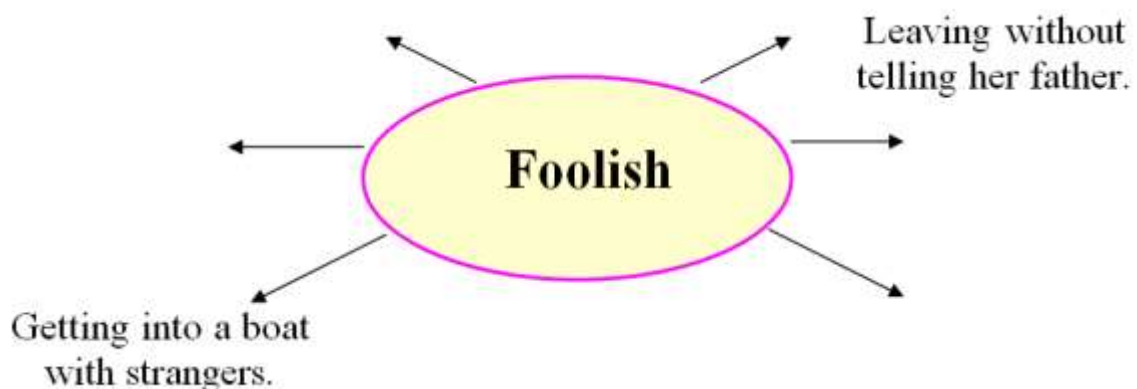

LO: I can describe Lila's character and justify my opinion.

Lila is the main character in the book. She shows many different characteristics as the story progresses.

1. Choose the statement which you think most closely matches Lila's personality and think about times in the book when she acted in that way.

2. Make a spider diagram like the one below for the characteristic you have chosen, and add examples of when Lila showed this.

Think about Lila's other characteristics. Match the words to the actions so show she has different sides to her personality.

Kind

She took along some self-igniting crackle dragons for her journey.

Foolish

She continued up the mountain once she had fallen.

Courageous

She could invent new fireworks that did amazing things.

Talented

She entered the mountain without the magic water.

Thoughtful

She walked through the flames to become a firework maker.

Stubborn

She left her father's house despite being told she could not be a firework maker.

Determined

She returned to rescue her father from prison.
