

10/02/21

(Starter) O LO: Can I round numbers to the nearest 10, 100 and 1000?

(Main) O LO: Can I find missing angles, specifically using the properties of a rectangle?

For further guidance on the tasks today, click the link titled 'Maths - video input'.

Starter:

To begin, try to round the numbers below to the nearest 10, 100 and 1000.

Remember:

- 0, 1, 2, 3, 4 - hit the floor
- 5, 6, 7, 8, 9 - climb the vine

Nearest 10:

19	<input type="text"/>
22	<input type="text"/>
83	<input type="text"/>
57	<input type="text"/>
74	<input type="text"/>
117	<input type="text"/>

Nearest 100:

219	<input type="text"/>
342	<input type="text"/>
743	<input type="text"/>
841	<input type="text"/>
975	<input type="text"/>
5,160	<input type="text"/>

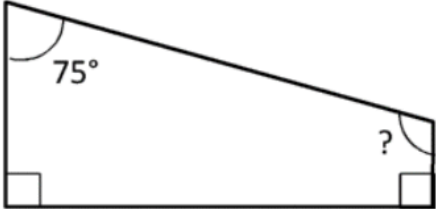

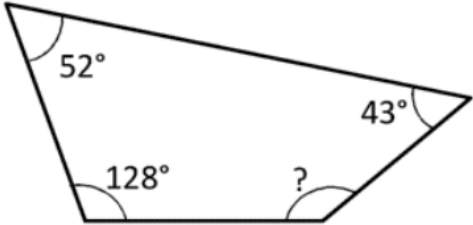

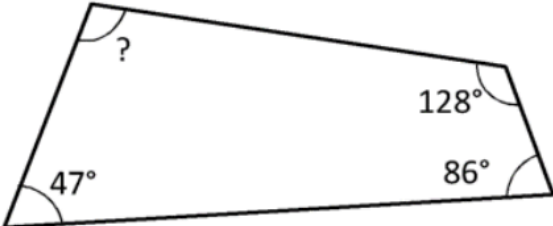

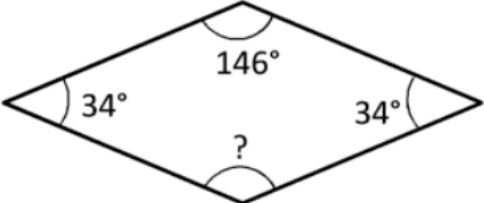

Nearest 1000:

4,125	<input type="text"/>	9,441	<input type="text"/>
2,317	<input type="text"/>	25,620	<input type="text"/>

Main

Remember that the angles in a quadrilateral add up to 360° . The angles are not drawn to scale, so do not try to measure them!

Find the value of each angle marked with a “?”

1) 	2) 
3) 	4) 
5) 	6) 
7) A rhombus 	8)
