

## Class 1 Storyshare activity

### Week commencing 8<sup>th</sup> February 2021

Hopefully you will soon be receiving a delivery of cress seeds and bean seeds, together with some paper plant pots to plant them in. Please plant the beans in some soil and remember to water them, keep them warm and where there is some sunshine. You can plant the cress in the smaller pot on some cotton wool if you like. Watch as they grow. Which grows first? How tall does it grow? Perhaps you can measure how tall it gets using blocks or Lego bricks.

If you enjoyed Jasper's Beanstalk perhaps you could retell the story over the week using the diary template. Or if you prefer write a sentence telling me what you have done each day, just like Jasper did. Remember to sound out the words you want to write and segment them using your Phonic fingers to help you spell the words.

I look forward to seeing what you all get up to!
